/ HOW IT WORKS

From application to your new homepage

1

Apply

Fill out the short application with your current website, your business, and the vibe you're going for. It takes about two minutes.

2

I review your site

Every application is reviewed personally. If we're a good fit, I'll reach out within 24–48 hours to confirm the details.

3

Pay your $80 invoice

I'll send your invoice through HoneyBook, where you can pay securely by card (payments are processed by Stripe). Work starts once it's paid.

4

Get your redesign

Within 3 business days, you'll receive your redesigned homepage along with a walkthrough of what I changed and why each change helps your business.

5

You decide

Love it and want the full site? Your $80 is credited toward your deposit. Not ready? No problem. There's no obligation to move forward.

A note on advanced features

This offer is for standard business websites: pages, a contact form, a gallery, and reviews. Some sites need more, like:

- ✓ Online booking or scheduling
- ✓ Payments, deposits, or an online store
- ✓ Client portals or member logins
- ✓ Automated emails or follow-ups
- ✓ Custom integrations (CRM, POS, or other software)

These are part of my Enterprise builds. They take more time to build, so they're quoted separately. Your $80 redesign stays the same either way, and I'll always give you a separate estimate up front so there are no surprises.

/ COMMON QUESTIONS

Do I have to build my full website with you?

No. The redesign is yours to keep either way. Moving forward is completely up to you.

Will my current website change?

No. Nothing on your live site changes unless you decide to move forward.

What if I don't have great photos or a logo?

That's okay. I'll work with what you have and let you know what would make the biggest difference.

Why only 5 redesigns per week?

Every redesign is done by me personally, so I keep the number small to give each one real attention.
